

Are you conservative?

Family

Healthy, happy, stable families make a healthy, stable nation.

Agree

Disagree

Family values such as marriage, parental authority, and ability to provide a home need to be protected.

The safeguarding of life at all stages from the womb to the tomb is a justice issue, not a health issue.

Justice

3 stage sentencing work in prison, education in prison, work in community. No progress, no release.

Successful rehabilitation should be the end goal of incarceration.

The root cause of youth crime is broken families. Government should treat the cause, not just the symptom.

Democracy

The government should listen to its people. All referenda should be binding.

Our national sovereignty must be protected. The UN cannot be given greater precedent than the voice of the nation's citizens.

Rushed law changes put democracy at risk. Due diligence and consultation is essential for good law.

Community

Citizens should be treated as equals regardless of age, gender, ethnicity, etc. All state support should be based on need alone.

It is a scientific fact that there are only two biological genders. Gender ideology should not be taught in schools.

All have the right to share beliefs and values, unless inciting others to crime. Religious practices must not violate New Zealand laws.

Pull out of the Paris Accord, no more Carbon Credits, and protect our environment, focusing on finding solutions to our pollution.
